About Vedic Maths

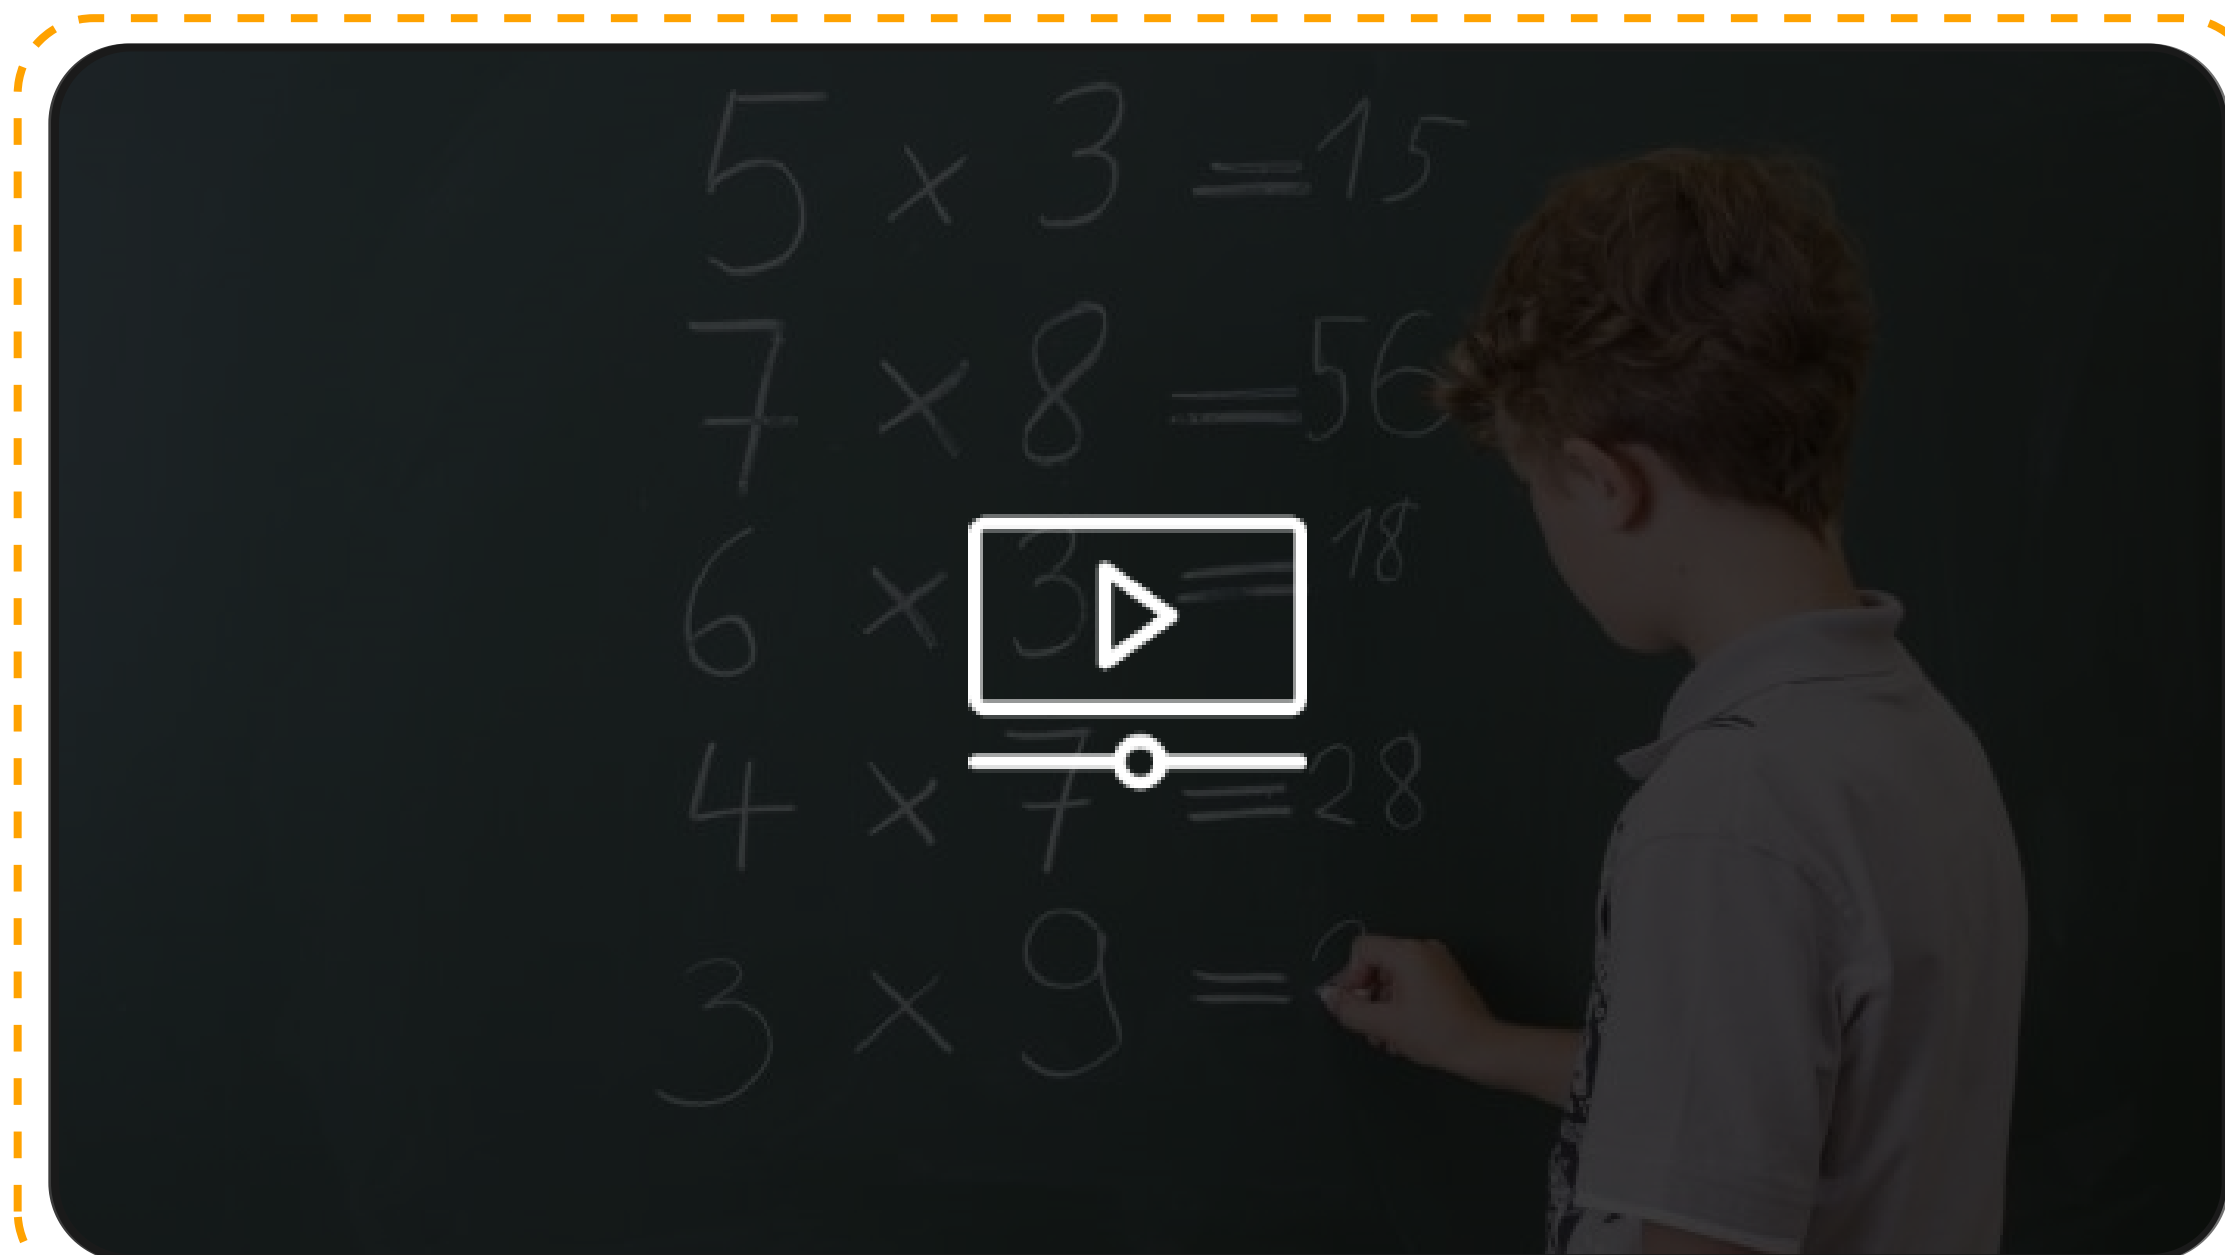

Lorem Ipsum is simply dummy text of the printing and typesetting industry.

Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

Video of a student doing a calculation of nine digit number.

Become an edupreneur and partner with Astron Maths Academy providing for most training in Vedic Mathematics since 13 years.

Astron Maths Academy is built on strong foundation with a motive to impart learners the goodness of Vedic Mathematics and help to remove Maths phobia.

Currently the world is going through a crisis in Mathematical literacy. According to a survey by the Annual Status of Education Report (ASER) more than 75% of primary kids couldn't do basic addition and subtraction and more than 50% of the secondary students cannot correctly solve a numerical division problem. And if the percentage rises more, than this is a serious matter of concern for the country.

Vedic mathematics can come to the rescue for this lack of numeracy where you can play a pivotal role in getting the best out of the students and rising India's numeracy level.

Our honorable PM Shri Narendra Modi ji also promoted Vedic Mathematics for better and faster calculation to a student of 12th standard during the program 'Mann ki Baat' on 26 July 2020.

Reasons to become Astron Maths Academy Franchisee Owner :

Be your won Boss

Becoming an edupreneur with Astron Maths Academy can add more income to your family where you can fulfill your dreams and passion.

Break even within 9 to 10 months

You can earn back your invested money within 9 to 10 months of starting your own Vedic Mathematics Centre with us.

Teaching with unique games and puzzles

Unique and specially designed puzzles and games for kids will bring best out of them. Kids will love our course and will never miss out even a single class.

Regular Training and Teaching

Regular training will be provided with no extra cost. Courses and Puzzles are updated every year.

Money Back guarantee on all courses

All our courses are tried and tested on thousands of students and resulted in 100% improvement. If a student fails in getting improvement even with regular attendance then franchisor will refund the fees (excluding tax) on behalf of the franchisee.

About Us

Astron maths Academy was founded in 2008 with the motive to help students by engaging them with ancient mathematical learning experience. Moreover, learning Vedic Mathematics strengthens their calculation skills and elevate love for the subject.

Many young learners have math phobia and dislike the subject and hence result in poor grades. In spite of mathematics being a scoring subject students fail to learn the subject. Now, here Vedic Maths come to the rescue, learning Vedic Mathematics at Astron Maths Academy with plenty of mind developing games and puzzles which actually help the students to like the subject.

The Courses designed at Astron Maths Academy are child - centric course which means the child will learn at his or her own speed which assures you 100% improvement.

What is Vedic Maths ?

Vedic maths is the world's fastest calculating system discovered by Jagadguru Shankaracharya Sri Bharti Krishna Tirthji (1884-1960). It is derived from ancient Vedas particularly from Atharva Veda.

It comprises of 16 sutras or formulae. These formulas are intended to describe the way the mind naturally works and are therefore supposed to be a great help in directing the students to the appropriate method of solution.

The whole Vedic Mathematics is interrelated and unified : the general multiplication method, for example is easily reverse to allow one line division and the simple squaring method can be reversed to give one line square roots. And, these are all easily understood. This unified quality is very satisfying, it makes calculation easy and enjoyable and it encourages innovation too. Difficult Arithmetic problem and huge sums can often be solved immediately by Vedic Mathematics.

Benefits

- ✓ It is 15 to 20 times faster than normal maths.
- ✓ Increases mental calculation and concentration.
- ✓ Improve intelligent, guessing analytical, thinking and logical thinking.
- ✓ Improve Academic performance with Holistic development.
- ✓ Increases Imagination power and Confidence of a student.
- ✓ It reduces Maths phobia.

Difference between Vedic Maths and Abacus

- | | |
|--|--|
| 1. Derived from Atharva Veda | 1. Based on Chinese or Japanese Abacus |
| 2. One doesn't needs to learn any kind of | 2. One needs to learn an instrument i.e Abacus to calculate. |
| 3. One can do addition, subtraction, multiplication, division, square, square root, Cube, cube roots, algebra, linear equation simultaneous equation, geometry and anything. | 3. One can do addition subtraction multiplication and division only. |
| 4. Courses available up to competitive exam level. From age 8 to 85 anybody can learn Vedic Maths. | 4. No courses available for class 7th onwards. |

Sutras :

NAME	COROLLORY	MEANING
1. Ekadhikena Purvena	Anurupyena	By one more than the previous one
2. Nikhilam Navatashcaramam Dashatah	Sisyate Sesasamjnah	All from 9 and the last from 10
3. Urdhva-Tiryagbyham	Adyamadyenantyamantyena	Vertically and crosswise
4. Paraavartya Yojayet	kevalaih saptakam gunyat	Transpose and adjust
5. Shunyam Saamyasamuccaye	Vestanam	When the sum is the same that sum is zero
6. Anurupye Shunyamanyat	Shunya Anyat	If one is in ratio, the other is zero
1. Ekadhikena Purvena	Anurupyena	By one more than the previous one
2. Nikhilam Navatashcaramam Dashatah	Sisyate Sesasamjnah	All from 9 and the last from 10
